

C++ STL vector Functions by Time Complexity

O(1)

size()
empty()
front()
back()
operator[]
at()
begin()
end()
pop_back()
swap()
push_back()

O(log n) (sorted vector)

binary_search()
lower_bound()
upper_bound()
equal_range()

O(n)

find()
count()
reverse()
clear()
resize()
reserve()
assign()
insert()
erase()
remove()
unique()
rotate()
max_element()
min_element()
accumulate()
copy()

O(n log n)

sort()
